Division Memorandum No. 2 s. 2015

To: **Private Elementary and Secondary Schools**
Education Program Supervisor in-charge of Private School

From: *JMB*
FROSERFINA J. BRAVO
OIC - Schools Division Superintendent

Subject: **Google Apps Private School ITOs Training Workshop**

Date: **January 11, 2015**

Department of Education Central Office in partnership with Google, Inc. has selected the Division of Dagupan City to be one of the city-recipients for Google Apps for Education Training. The training will be conducted by Kollab, a proud Google partner. This training-workshop is **free**.

The said training-workshop is scheduled on January 22-23, 2016 at the 2nd floor Computer Laboratory, CITE Building, University of Pangasinan – PEN, Arellano St, Dagupan City.

Participants to the said event are School ICT Teacher/Coordinator. Only one (1) participant per school.

Please see attachment for further information and details.

For your information and dissemination.

Burgos Street Downtown District
Dagupan, Pangasinan

"Through Google Apps, U.P. students, faculty, staff, and even us administrators will have greater opportunities for collaboration despite geographic constraints."

- *Elvira Zamora, VP for Development, University of the Philippines*

Dear Ms. Bravo,

My name is Herald Uy, CEO and Chief Evangelist of Kollab, a proud Google for Education Partner in the Philippines. I am pleased to introduce *Google Apps for Education* to your school.

Google Apps for Education provides you with a free, secure and reliable collaboration platform that enhances communication and teamwork among your students, educators and non-teaching staff. They are a powerful suite of applications that empowers everyone to create and share documents that are accessible anytime, anywhere and on any device.

Google Apps for Education can be used through any device but to truly take advantage of the cost savings that Google has to offer, it is best when used with Chromebooks.

Chromebooks are new, powerful and affordable mobile computers built for the classroom. They were made to lower your total cost of ownership and allows for sharing while retaining a personal experience for each user. You can set up Chromebooks in minutes and centrally manage 10 or 10,000 of them across your organization remotely.

Deploying Apps with Chromebooks fully enables 21st century learning in your school. We're continuously working with both private and public K12 schools, colleges and universities to deploy these platforms on a national scale. University of the Philippines, Mindanao State University, Ateneo de Manila University, De La Salle University, including our Department of Education, Commission on Higher Education, Technical Education and Skills Development Authority, and more than 500 academic institutions have benefited immensely from Google technologies.

The Department of Education Central Office together with Google has selected Dagupan City to be one of the cities where we will conduct a training workshop. With the help of **Reynan Infante, DepEd ITO Dagupan City**, we manage to get approval from **Dean Aris Liwanag** of University of Pangasinan PEN to accommodate us during the training workshops. Our training venue is at **2nd Floor Computer Lab. CITE Bldg. University of Pangasinan PEN, Arellano Street Dagupan City 2400** on **January 22, 2016 to January 23, 2016** (Friday-Saturday). Below this letter is a preview of the agenda for our workshops and training for your reference.

Google for Education

With the help of your office, we look forward to collaborate more with your school to inspire more educators to leverage technology into classroom teaching. Thank you for being onboard in this endeavor.

Maraming salamat!

Herald Uy
CEO / Chief Evangelist, Kollab
