J.M.

Good day. I fervently hope this letter finds you well.

Attached herewith is the letter of Advisory from office of Regional Director No. 092, s. 2022 for your reference.

With this, we would like to ask your assistance to help us to disseminate to public and private elementary and secondary schools in your division and advisory letter to facilitate this project this this incoming school year 2023-2024.

We're on a mission to advocate for youth education by taking small steps towards big change. Since it is a mobile co-curricular activity, we will be bringing to school's doorstep all the things needed for the event. Laboratory experiments and art projects are part of co-curricular activities.

The program is designed to enhance the students' awareness of important contributions made through simple science experiments in preserving our planet and through arts in improving our environment.

We are determined to protect the students and teaching staff by making use of the school as venue for the said event. We will responsible for all the materials for the event and will provide a teaching team to demonstrate, explain and answer all queries. We are offering a hands-on experiment, reuse-reduce-recycle awareness program to be presented to schools on their chosen date.

Thank very much.

Very truly yours,

**MICHAEL L. CASEM**  
General Manager
